Contents

Marine Geology Volume 135, 1996

Letter Section

The structure of the Easter Platform, Houtman Abrolhos Reefs: Pleistocene foundations and Holocene reef growth
L.B. Collins, Z.R. Zhu and K.H.Wyrwoll 1

Research Papers

The "equilibrium" distribution of grain size fractions and its implications for cross-shore sediment transport: a conceptual model
J. Guillén, P. Hoekstra 15

Application of grain size trend analysis for the determination of sediment transport pathways in intertidal areas
R. Pedreros, H.L. Howa and D. Michel 35

Mineral magnetic and textural interpretations of sedimentation in the Skagerrak, eastern North Sea
A. Lepland, R.L. Stevens 51

Continental slope sedimentation adjacent to an ice-margin. II. Glaciomarine depositional facies on Labrador Slope and glacial cycles
D. Wong, R. Hesse 65

Stratigraphy and sedimentary environments during the Late Quaternary, in the Eastern Bohai Sea (North China Platform)
T. Marsset, D. Xia, S. Berne, Z. Liu, J.F. Bourillet and K. Wang 97

Implications of a saltmarsh chronology for the Severn Estuary based on independent lines of dating evidence
P.W. French 115

Late Quaternary productivity changes in the western equatorial Atlantic: Evidence from ^{230}Th-normalized carbonate and organic carbon accumulation rates
C. Rühlemann, M. Frank, W. Hale, A. Mangini, S. Mulitza, P.J. Müller and G. Wefer 127

An instrument for aggregate studies in the benthic boundary layer
L. Thomsen, S. Jähmlich, G. Graf, M. Friedrichs, S. Wanner and B. Springer 153

Writing user selectable data on the extended header of seismic recordings made on the Texas Instruments DFS-V
W.C. Robinson 159

Book Review

Geology of Deltas by M.N. Oti and G. Postma (Editors)—D.J. Stanley 163

1996 Year-End Index, Volumes 129–135 165
